#### I. OVERVIEW

1. The financial situation as at 31 July 2002 can be summarized in the following major points:

(a) The regular budget is being implemented with an initial allocation of 97 per cent of the 2002 appropriations. The expenditure for the first seven months amounted to 56.7 per cent of the 2002 appropriations as compared with 55.1 per cent during 2000, the first year of the previous biennium;

(b) The operational budget recorded a surplus of  $\notin 0.7$  million during the first seven months of 2002; therefore the level of the operational budget increased from  $\notin 3.3$  million as at 1 January 2002 to  $\notin 4.0$  million as at 31 July 2002;

(c) The expenditure level for Buildings Management for the first seven months amounted to about 50 per cent of the 2002 appropriations, which is slightly lower than that for the same period of 2000 (54.6 per cent);

(d) The level of regular budget cash resources (including the Working Capital Fund) was  $\in$  50.3 million. As compared to this, the cash balance as at 31 July 2001 and 2000 was  $\in$ 19.2 million and  $\notin$ 24.6 million, respectively;

(e) The collection rate of 2002 assessed contributions was 87.6 per cent—the highest for the same period since UNIDO became a specialized agency. In comparison, the collection rates in July 2001 and 2000 were 60.1 and 74.2 per cent, respectively;

(f) The collection rate of prior years' arrears, as compared to the current year's assessments, was 4.5 per

cent. The rates as at 31 July 2001 and 2000, as compared to the assessments of those years, were 17 and 8.2 per cent, respectively;

(g) Outstanding contributions amounted to  $\notin$ 116.4 million, as shown in annex I to the present document (including arrears of  $\notin$ 69.3 million by the United States of America, and  $\notin$ 2.1 million by the former Yugoslavia). The outstanding amounts as at 31 July 2001 and 2000 were  $\notin$ 132.4 million and  $\notin$ 128.0 million, respectively (for comparison revalued at the December 2001 United Nations rate of exchange, US\$ 1 =  $\notin$ 1.123 (GC.9/Dec.15));

(h) The Working Capital Fund was at the level of  $\notin$ 7,423,030; however, an amount of  $\notin$ 138,901 was outstanding as at 31 July 2002;

(i) Unencumbered balances of appropriations, income from new Member States, and interest income in excess of budgetary estimates (total amount  $\notin$ 7,195,414): A number of Member States have not yet informed the Secretariat on the disposition of their shares arising from the implementation of General Conference decision GC.9/Dec.10, which amount to  $\notin$ 840,818 (details are provided in annex II).

# II. REGULAR AND OPERATIONAL BUDGETS, 2002-2003

2. As stated in document IDB.25/6, the implementation of the approved programme and budgets commenced as planned.

3. Regular budget expenditures during the period 1 January to 31 July 2002 amounted to  $\notin$  38.7 million. This amount corresponds to 56.7 per cent of the total appropriation for 2002 and is comparable with the first

year (i.e. 2000) of the preceding biennium of 55.1 per cent. The current value represents a smooth budget implementation with a lesser risk of delaying or non-implementing approved programmes.

Expenditures/delivery of technical cooperation 4. activities as of 31 July 2002 amounted to \$57.6 million. As compared to this, delivery as of 31 July 2001 and 2000 was \$60.7 and \$46.8 million respectively. As can be seen, delivery in 2002 is higher by some \$11 million as compared to the first year of the previous biennium; however, it is about \$3 million lower than that of the second year of the previous biennium. This is attributable to the traditionally lower delivery of the Regular Programme for Technical Cooperation (RPTC) in the first year of a biennium due to the need to carefully programme these resources. However, with the establishment of a special account for RPTC in the current year, it is expected that such a situation will be largely addressed and that delivery of such resources in future years will be more even over the biennium. Every effort is being made to achieve the current year delivery target of some \$90 million.

5. Operational budget income from support cost earned from technical cooperation delivery amounted to  $\notin$ 7.2 million (\$6.6 million) for the first seven months of 2002. Expenditure for the same period amounted to  $\notin$ 6.5 million, leading to a surplus of  $\notin$ 0.7 million during the first seven months of 2002. Therefore, the level of the operational budget reserve increased from  $\notin$ 3.3 million as at 1 January 2002 to  $\notin$ 4.0 million as at 31 July 2002.

6. The Buildings Management budget is also being implemented smoothly. Expenditure for the period 1 January to 31 July 2002 amounted to  $\notin 17.9$  million, which represents some 50 per cent of the 2002 appropriations. As compared to this, expenditure in 2000—the first year of the previous biennium—

amounted to some 54 per cent of the appropriations of that year.

# **III. ASSESSED CONTRIBUTIONS**

#### A. Collections

7. A total of 58 Member States, including five least developed countries (LDCs), have made full payments and 19 Member States, four of which are LDCs, have made partial payments of their assessed contributions for the year 2002. The collections in the period from January to July 2002, broken down by Lists of States, are shown in table 1.

Table 1. Collections, January-July 2002(In millions of euros)

9. As stated in document IDB.25/6, the Secretariat is closely following developments at the United Nations General Assembly regarding the arrears of the former Yugoslavia. Any decision in this respect taken by the General Assembly will be conveyed to the UNIDO governing bodies for consideration.

### **IV. VOTING RIGHTS**

10. As indicated in annex I to the present document, the voting rights of 53 Member States had been suspended as at 31 July 2002 in accordance with Article 5.2 of the Constitution and financial regulation 5.5(b), as shown in table 3.

11. In order to restore their voting rights for the remainder of 2002, these Member States must pay their full contributions for 1999 and prior years, including advances to the Working Capital Fund, as well as a partial contribution for 2000. The minimum total amount that would have to be paid by these Member States is  $\notin$ 21,838,380.

#### V. IMPLEMENTATION OF RECOM-MENDATIONS OF GROUP ON TIMELY PAYMENTS

12. There have been no significant developments since the issuance of document IDB.25/6, except for continued discussions on a proposed payment plan for Azerbaijan, as authorized by the Board at its twenty-fifth session (IDB.25/Dec.6). Negotiations commenced with Azerbaijan in early June 2002 and a report will be issued to the Board at its twenty-sixth session.

#### VI. UNENCUMBERED BALANCES OF APPROPRIATIONS, INCOME FROM NEW MEMBER STATES AND INTEREST INCOME IN EXCESS OF BUDGETARY ESTIMATES

13. Detailed information on the unencumbered balances of appropriations, income from new Member States and interest income in excess of budgetary estimates was provided in document IDB.25/6. The status as of 31 July 2002 is shown in annex II. A summary is provided in table 4.

#### VII. IMPLEMENTATION OF NEW FINANCIAL SYSTEM

14. As reported in various documents, including IDB.25/6, and commented upon by the External Auditor in his report (PBC.18/3-IDB.26/2), one of the biggest challenges for UNIDO's financial management in 2000-2001 was the implementation of the new financial performance control system (FPCS). The new system was implemented within a very short time frame in view of the need to have the system fully operational before the introduction of the euro with effect from 1 January 2002, as well as within the limited staff and financial resources available. The total implementation costs amounted to only \$1.7 million, as confirmed by the Auditor. The External Auditor was also regularly involved in the process and provided necessary assistance and guidance.

15. UNIDO has, therefore, successfully implemented the first phase of the new financial system; attention will now be given to other requirements. As stated in document IDB.25/6, since 1 January 2002 UNIDO has been using FPCS as the sole system for all accounting transactions. Work continues internally in the area of designing and developing various reports based on transaction data captured by the new system, linking FPCS to existing executive management systems, and on finding solutions to the requirement to continue accounting and reporting for technical cooperation activities in United States dollars, whereas the base currency is now the euro. The system has been rolled out to the staff involved in financial operations and programme/project management following intensive internal training.

#### VIII. TRANSITION TO A SINGLE CURRENCY SYSTEM (EURO)

16. As reported in documents IDB.25/6 and IDB.25/CRP.3, a single currency system of assessment based on the euro became effective with the current fiscal period 2002-2003, and UNIDO took all necessary steps to ensure its smooth implementation. Document IDB.26/4-PBC.18/5 provides detailed information on this subject. In addition, a conference room paper containing the updated Financial Regulations of UNIDO reflecting the decisions taken by the General Conference for the introduction of the euro was issued to the Board at its twenty-fifth session (IDB.25/CRP.4).

#### IX. ACTION REQUIRED OF THE COMMITTEE

17. The Committee may wish to consider recommending to the Board the adoption of the following draft decision:

"The Industrial Development Board:

"(a) Takes note of the information provided in document IDB.26/9-PBC.18/10;

"(b) Also takes note of the information contained in chapter VI and annex II of that document on the implementation of General Conference decision GC.9/Dec.10;

"(c) Urges those Member States and former Member States that have not yet paid their assessed contributions, including advances to the Working Capital Fund and prior years' arrears, to do so without delay;

"(d) Requests the Director-General to pursue his efforts and contacts with Member States to effect the collection of arrears."
